*California Consumer Privacy Act (CCPA)*

California residents, as mandated under California privacy laws, including the CCPA, requires that we provide California residents certain specific information about how we handle their personal information, whether collected online or offline. In addition, New Dynamic may share data with service providers in order to provide services to New Dynamic or to provide services on New Dynamic’s behalf, such as performing statistical analysis, delivering email or postal mail, providing customer support, or arranging deliveries. We require all such service providers to agree to limit their use of your personal data to performance of such services in a manner consistent with this privacy policy. In the context of an onward transfer, New Dynamic has responsibility for the personal data it receives under the Privacy Shield and subsequently transfers to a service provider acting as an agent on its behalf. New Dynamic shall remain liable under the Privacy Shield Principles if its agent processes such personal data in a manner inconsistent with

the Privacy Shield Principles, unless New Dynamic proves that it is not responsible for the event giving rise to the damage.

### **Use of Cookies**

The New Dynamic website uses "cookies" to help you personalize your online experience. A cookie is a text file that is placed on your hard disk by a Web page server. Cookies are uniquely assigned to you and are designed to be read only by a web server in the domain that issued the cookie to you.

One of the primary purposes of cookies is to provide a convenience feature to save you time. The purpose of a cookie is to tell the Web server that you have returned to a specific page. For example, if you personalize New Dynamic pages, or register with New Dynamic site or services, a cookie helps New Dynamic to recall your specific information on subsequent visits. This simplifies the process of recording your personal data, such as billing addresses, shipping addresses, and so on. When you return to the same New Dynamic website, the information you previously provided can be retrieved, so you can easily use the New Dynamic features that you customized.

New Dynamic also works with advertisers and service providers, like Google, who may have placed one or more cookies on your computer either at the time of your visit to the New Dynamic website or when you visit other websites for which they provide services. We partner with those companies to assist us in marketing New Dynamic's products and services on third party websites to individuals, like you, who have previously visited the New Dynamic website or have otherwise demonstrated an interest in our products and services. If you prefer, you may opt out of Google's use of cookies for this kind of interest-based advertising by modifying Google's [Ads Settings](#). You have the ability to accept or decline cookies. Most Web browsers automatically accept cookies, but you can usually modify your browser setting to decline cookies if you prefer. If you choose to decline cookies, you may not be able to fully experience the interactive features of the New Dynamic services or websites you visit. At this time, however, the New Dynamic website does not respond to "Do No Track" signals, and the website may therefore collect any information that an end user's browser provides, such as information identifying the end user's operating system and Internet protocol address.

### **Information Retention, Security and Integrity**

We may maintain personal data in our databases for so long as we believe it is necessary or beneficial for purposes of developing, providing and improving our services, even indefinitely, except to the extent we are required to remove such personal data by applicable law, and except as described above regarding Sensitive Data. Even after we remove personal data from the databases that we use in active operation of our business, some or all of that personal data may be retained in our inactive archival backups of those databases.

We exercise reasonable security measures consistent with industry standards to protect against unauthorized access to personal data stored in our databases, and to prevent unauthorized use, alteration, corruption or disclosure of that personal data. Personal data stored in our possession is maintained behind firewalls, and our servers are located within facilities that are subject to physical security measures designed to prevent unauthorized access.

We restrict access to personal data to our employees, contractors and agents who need to access that information in order to operate our business in a manner consistent with this privacy policy. All such personnel are required to treat personal data in a manner consistent with this privacy policy, and they are subject to discipline, potentially including termination, if they fail to comply with those requirements.

While we believe our policies and practices regarding information security and integrity are reasonable, we cannot guarantee that the security and/or integrity of personal data will not be breached or that such personal data will not be subject to unauthorized access, alteration, corruption or disclosure. We review our information security policies and practices periodically and may update them as we determine reasonably necessary to achieve information security and integrity consistent with industry standards.

### **How Long We Keep Your Personal Data**

Your personal data will be retained in accordance with our global data retention policy which categorizes all of the information held by us and specifies the appropriate retention period for each category of data. Those periods are based on the requirements of applicable data protection laws and the purpose for which the information is collected and used, taking into account legal and regulatory requirements to retain the information for a minimum period, limitation periods for taking legal action, and our business purposes.
